

CHILIAN CONFLICT.

News Conflicting and Contradictory.

POTTER THE PHILANTHROPIST.

Died at His Old Home in Boston to-day.

Healy Knocked Out By Dalton on Purpose.

The Chili Conflict.

NEW YORK, March 26.—Some New York houses in the Chili trade have received news to the effect that the Chilean insurgents are on top. Others get only news that President Balmaceda and the government are in the ascendant. Yesterday both the insurgents and Balmaceda had a hearing. In the first place, and for the insurgents, it was announced that the Governors of Antofagasta and Maitland had gone over to the insurgents. This, it was averred, was very important, as these two governments are in charge of the most important site of any towns in the Republic and have direct supervision of the railroads leading to the Chilean silver mines. Balmaceda's adherents took a hopeful view of things when they received copies of the *South American Journal*. This paper related how a young Lieutenant on board the insurgent's gun-boat made a prisoner of the captain and put him ashore. The members of the crew were for Balmaceda then. The Lieutenant, so the paper says, captured two other gun-boats from the insurgents, and put their captains ashore after trying them hard and foot.

New Line.

By Cable and Associated Press.
MONTREAL, March 26.—Montague Allen and J. S. Allen of the Allen Steamship Line arrived in England on business connected with the steamship project. It is proposed to form a new company of which the naval construction and armament company of Barrow-in-Furness and the Allen company will be the chief promoters. Negotiations between the two companies are at present in progress and it is expected to be successful. The intention is to have the new company take over the existing Allen line of steamers and run them principally as freight steamers. The new line will be under the control of the Allens and will be neutral as between the Grand Trunk and Canada Pacific railways. The new company is working to secure a government subsidy. Three or four fast steamers will be built similar to those running to New York and the expected traffic to and from Chicago and the Northwest will thus be diverted towards Montreal. Montreal will be the summer port and either Halifax or St. John the winter port.

Modus Vivendi in Africa.

By Cable and Associated Press.
LISBON, March 26.—The statement that the Portuguese authorities of South Africa had declared a state of siege in Manicaland is not credited here. It is semi-officially announced that the Portuguese Government desires to maintain a modus vivendi and in no way interfere with the rights of the British South African Company or with British subjects residing in Manicaland.

Rio Grande Dividend.

By Associated Press.
NEW YORK, March 26.—The Directors of the Rio Grande Western declared a quarterly dividend of 1 1/2 per cent in cash on the preferred stock and authorized the sale of 12,500 shares of preferred stock at 65 to common and preferred stockholders, the proceeds to be used in reducing grade, buying equipments and improvements.

Potter the Philanthropist.

By Associated Press.
BOSTON, March 26.—Silas Potter, one of Boston's oldest wholesale shoe dealers and bank directors, died to-day. He was a liberal contributor to the charitable and religious societies, and aided largely in the cause of negro education in the south, and in the establishment of schools and churches for the west.

It Was Done for a Purpose.

By Cable and Associated Press.
CORK, March 26.—Timothy Healy, in an interview to-day, says he is convinced that Dalton was instigated to assault him in order to disable him from taking part in the Sligo election.

Grain Market.

Special to the GAZETTE.
SAN FRANCISCO, March 26.—Wheat, buyer '91, 15 1/4; barley, buyer '91, 12 1/4.

Incident Kansas.

By Associated Press.
KANSAS CITY, March 26.—Advices received this morning from many points throughout Kansas indicate the most severe snow storm ever known raged over a greater portion of the State yesterday. Railway traffic is at a standstill. Every available snow-plow was called into requisition, but made very little headway. Several trains were caught between stations, among them being the Missouri Pacific pay train. The company manages to keep those on board supplied with food, but if the storm should last much longer they will be in a serious predicament. Reports from all directions indicate great suffering by live stock from lack of food and water. The Neosho river, which began rising Tuesday, is out of its bank in many places and higher than in many years. On the Central branch of the Missouri Pacific a great many poor people are reported suffering for lack of fuel and food.

A Big Check.

By Associated Press.
NEW YORK, March 26.—One of the largest checks known was cashed at the Sub-Treasury recently. It was drawn to the order of Governor David B. Hill for the sum of \$2,213,230 86, and was presented for payment by the Bank of Commerce, which had received it for collection from the Mercantile Bank of Albany. The money was voted to the State of New York by Congress at its last session. It is New York's share of the direct tax refund which is being repaid by the Government. The money was advanced by this State during the civil war.

A Competitive Point.

By Associated Press.
DENVER, March 26.—An exciting scene was witnessed here yesterday at Fifteenth and Champa streets, when the Denver and Suburban Railroad attempted to cross the Denver tramway tracks. The latter company appeared with armed forces of men, all their cars were crowded to the crossing, and it was necessary to place fifty policemen on the corner to prevent bloodshed. The men fought and tumbled around in the mud, while fully 5,000 people stood yelling and hooting at the tramway officers for endeavoring to obstruct the opposition company.

Hackney Buried.

By Associated Press.
NEW YORK, March 26.—The funeral of John A. Mackay, the actor, took place this afternoon from St. Agnes Roman Catholic Church in Brooklyn. It was largely attended by members of the profession. The pall-bearers were from the Turnover Club, Actors Fund, Mohican and Fives clubs. The interment was in the Cemetery of the Holy Cross at Flatbush.

Jewelry Store Robbed.

Special to the GAZETTE.
LOS ANGELES, March 26.—It was discovered this morning that Bartlett Bros.' music and jewelry store was entered last night and robbed of \$2,000 worth of goods, mostly jewelry. The store door had been closed but not locked, as a party was holding a musical rehearsal in the rear.

Very Like a Whale.

Special to the GAZETTE.
SAN FRANCISCO, March 26.—Captain Bray, of the tug boat service, came in from the Heads this morning towing the British ship, Glencairn. He reports quite a school of whales on the outside. One of the Leviathans came in past Fort Point where it spouted for an hour or to.

Watered Stock.

By Associated Press.
BOSTON, March 26.—In regard to the statement of an over-issue of stock made by the Boston Water Power Company, J. P. Farley, consul for the company, said the accounts were mixed and he suspected an over-issue but had not yet discovered any.

Foolish Prejudices.

By Associated Press.
NASHVILLE, March 26.—The Senate has rejected the bill appropriating \$250,000 for a State exhibition at the World's Fair. The House, however, passed a bill allowing the county authorities to appropriate money for exhibits at the Fair.

Heard in London.

By Cable and Associated Press.
LONDON, March 26.—During the performance of "Le Mage" in Paris last night the opera house was connected with London by telephone and the music was distinctly heard.

On a Bankrupt Treasury.

By Associated Press.
LITTLE ROCK, March 26.—A bill to pension disabled ex-Confederate soldiers and their indigent widows has passed both houses of the Legislature of Arkansas.

Weather Report.

Special to the GAZETTE.
SAN FRANCISCO, March 26.—A steady rain began falling here this morning. Forecast: Light rains in northern California.

To Blanket the U. P.

By Associated Press.
NEW YORK, March 26.—Jay Gould has a large force of expert accountants at work upon the voluminous accounts of the Union Pacific railway, which recently came into his possession. It is the intention of President Sidney Dillon and the new management to issue a general blanket mortgage covering all the debts of the company, as was done by the Atchafalpa and the Milwaukee & St. Paul railroad companies.

There are many legal points involved, and it will be some weeks before the plan will be ready to be announced. It will include the settlement of the Union Pacific's debt to the Government, amounting to over \$100,000,000. It is said that the proposed mortgage will bear interest at the rate of 5 per cent, and that the securities upon which the company now pays 7 per cent, or more will be cancelled. Mr. Gould is giving the matter his personal attention and expresses strong hopes of the success of the plan.

CLOSING SCENES.

The California Legislature preparing to close. It seems from the following, culled from the Sacramento *News* of last evening, that the California Legislature, after getting all the business in sight, are going for the stationery, and what they can't carry off they pitch out of the window.

There was many a howl in the Senate this morning, and cries of "Where's my ink?" "Who took my pen?" "Did you see my pad?" "I'd like to know who got away with my Code," and similar complaints were as numerous as errors in an amateur ball game. Everybody in the Senate had lost something or other that had been picked up from the desks of Senators, and there was nothing left that was not tied down. Who took the stationery is not known, but it vanished from view to be seen no more by the former owners. Some malicious person last night stood over the railing on the upper rotunda of the Capitol and deliberately dropped a heavy crockery cuspidor to the ground below, a distance of about ninety feet. The spittoon broke into a thousand pieces and raised a noise that would awake an Egyptian mummy to life.

CLEANING HOUSE.

Dirty microbes and bacilli being removed from our sanctum sanctorum.

The GAZETTE office is now undergoing its spring clean-up, and as this is the first spring that it has ever passed through the trying ordeal, it is a big job. Dirty microbes and bacilli in every corner and on the walls, but the force is happy notwithstanding. New paper, fresh paint, soap and water and stove bleaching is being liberally applied, however, and if the friends of the paper will give us a call in a week or two we will take pride in showing them one of the handsomest offices in the State. We may also conclude to open a fresh bottle of ink or a jug of mullage; but come and look us over any way.

A Social Session.

The Social Session Co. will appear at McKissick's, Wednesday evening April 1st, and will give a fine performance. The Detroit *Free Press* says of them: Whitney's was filled last evening with an audience that almost went wild over the many ludicrous situations that are to be seen in this most laughable of musical farce-comedies. Without exception, it is as good a company as was ever seen here, every member being an artist of more than ordinary merit. Laughable situations seem to be the trade mark, and they follow each other in rapid succession. The auditors laugh because they cannot help it, and it is kept up until the final. A great many good things might be said of "A Social Session." Let it suffice by saying it is worthy the liberal patronage it everywhere receives.

Severe Sneezing.

Miss Emma Bingham, who lives near Kokomo, Ind., was taken with a severe attack of sneezing Monday. During the attack, which lasted four hours, before medical relief was secured, she sneezed over two thousand times, which so exhausted her that recovery is doubtful. Another and almost similar case is reported from Charleston, Ohio, and both are attributed to a gripe.

The President Coming.

President Harrison will leave Washington for this coast between April 6th and 15th. He will come by the Southern route, stopping at San Diego, Los Angeles and Santa Barbara, thence on to San Francisco, and return by the Northern route, giving him an opportunity of visiting Oregon and Washington. He will not favor Nevada with his presence.

Most Likely.

Judge Cheney to-day bought the residence property of Judge Bigelow on the South Side. (RENO GAZETTE.) Has Judge Bigelow concluded to take up his residence in Carson? (Carson Tribune.)

We presume the Judge will be obliged to sacrifice himself for the good of the State and move to Carson.

More Rain.

It was raining to-day at 2:30 at Carson, Steamboat and Verdi, with a good prospect for another good storm at this point. Thus far this has been one of the most favorable springs we have ever had.

CARNOT DECORATED.

The Franco-Russian Alliance.

CARNOT WELCOMES THE QUEEN.

The Austro-German Treaty Signed.

Messenger Service Opposed in London.

The Kincaide Trial.

WASHINGTON, March 26.—A number of witnesses in the Kincaide case were examined this morning. William McCormick, one of the door-keepers of the House, said he heard Taulbee call Kincaide a liar before the shooting occurred. About an hour and a quarter afterward Kincaide returned and asked witness' advice as to what he should do in regard to the trouble. Witness replied he had no advice to give. He said: "I am not able to cope with such a man as he (Taulbee). I have been sick and weak. More than that, I was not armed. I did not even have my cane." Then Kincaide left and walked rapidly to the head of the stairway. In a short time—about half a minute—witness heard the report of a pistol. On cross-examination he denied having heard Taulbee call Kincaide a "liar," "monkey" or "damned little coward." Nor did he hear Taulbee tell Kincaide to go and arm himself.

Robert Woodbridge, another door-keeper, substantially corroborated McCormick's testimony, except he testified to having seen Taulbee pull Kincaide's ear.

President Carnot Decorated.

By Associated Press.
PARIS, March 26.—At the Palace Elysee to-day Baron De Mohrenheim, the Russian Ambassador here, formally presented President Carnot with the Grand Cordo of the Order of St. Andrew, the imperial decoration which the Czar, by decree, recently conferred upon the President of the French Republic as a token, it is supposed, of the conclusion of an offensive and defensive alliance entered into between Russia and France, an off-set to the Dreibund. The occasion was marked with much display and ceremony, during which the Russian Ambassador also presented, on behalf of the Czar, military honors to the cabinet ministers and to a number of prominent State officials.

Murderers Hanged.

By Associated Press.
MAUCH CHUNG (Pa.), March 26.—The jail was crowded this morning with people to see the hanging of Oliver William Stangely. The crime for which he suffered death was the murder at Weatherly last October, of Mrs. Walbert, whom he killed during a fit of anger.

WITKESBARRE (Pa.), March 26.—George Washington Moss was hanged here in the prison yard this morning. Moss brutally murdered his wife last October. The couple had a great deal of trouble during their married life and the reason for the crime is thought to have been the humiliation Moss felt for being sent to jail for drunkenness and abusing his wife.

Opposed to Messengers.

By Cable and Associated Press.
LONDON, March 26.—Postmaster-General Raikes notified the new company which is engaged in trying to provide the London public with boy messenger service similar to that in use in the United States, that he will apply to the Courts for an injunction restraining the messengers from carrying letters.

Austro-German Treaty.

By Cable and Associated Press.
BERLIN, March 26.—Reports of the Austro-German negotiations for a commercial treaty concluded at conference Wednesday last, are correct. Terms of the treaty are agreed upon and it is believed the document will be signed to-day.

A Blow at Strikes.

By Associated Press.
AGUSTA (Me.), March 26.—The House to-day passed a bill providing for \$500 fine or two years imprisonment for preventing by intimidation or force any person from entering or remaining in any man's employ.

Rolling Mills Strike.

Special to the GAZETTE.
SAN FRANCISCO, March 26.—No new developments this morning in the Pacific Rolling Mills strike which is claimed to have been caused by the steel castings being made for the "struck" foundries.

"Ole Folks" at Home.

By Associated Press.
NEW YORK, 26.—"Ole Folks" has returned. The missing has been found by "The Straight Tip" company. A timid knock sounded on Mr. Powers' dressing-room last night, and to the comedian's "Come in," a shame-faced little darkey peered around the door. Mr. Powers assumed the indignant and asked the culprit where he had been. "Down to Gloucester," answered "Ole Folks." "What doing?" said Mr. Powers. "Well, you see, it is this way," said "Ole Folks." "You see, Jimmy Bowen who runs the sparring academy down at Seventh avenue and Twenty-sixth street, had a falling out with Hill, who was ruled off the Gloucester track on Friday for pulling Long Island. Jimmy comes to me and says: 'Ole Folks, I want you to come down to Gloucester with me and make things up with Hill for me. So I goes along and gives Hill a regular jolly up, and now he and Bowen are good friends. Hill paid all my expenses. You know he has lots of money.' " "Ole Folks" was taken in and forgiven.

An Important Enterprise.

Special to the GAZETTE.
SAN FRANCISCO, March 26.—A new enterprise will in all probability be in operation by next November. The name of the company is the Union Stock Yard Company of San Francisco, with a capital stock of \$2,500,000; A. D. Sharon, President; J. F. Bigelow, Vice-President; R. A. Harris, Manager; R. M. Hoffman, Secretary. The company has about 2,000 acres of land in the town site of Rodeo, twenty miles from here on San Pablo Bay. Director Silberhorn said this morning: "The Eastern directors were here for the past few days to complete arrangements for pushing the enterprise through as quickly as possible; they have gone home. I will remain for a short time to acquaint myself more fully with the wants of my meat packing house. Our purpose is to give the Pacific Coast a central market for live stock, as Chicago has given the west a central market. We are not a combination or trust. A number of improvements are already made and two large packing houses will be erected. One will be leased by William H. Silberhorn of Chicago, and the other by R. A. Harris of Omaha.

Victim of Hydrophobia.

By Associated Press.
MEXICO (Mo.), March 26.—William Garner, who died here yesterday of hydrophobia, was so violent that four men had to be kept with him all the time. His sufferings were terrible. About twenty years ago he was bitten by a mad dog.

Strike Broken.

By Associated Press.
PITTSBURGH, March 26.—A break has occurred in connection with the coke strike by several large mines resuming work to-day. The resumption was at a ten per cent. reduction of wages.

Carnot to Victoria.

By Cable and Associated Press.
PARIS, March 26.—President Carnot telegraphed Queen Victoria at Grasse, placing himself and French officials at her service during her Majesty's residence in that place.

TELEGRAPHIC BRIEVITIES.

Arrived at Southampton, the steamer Havel, from New York. The Steamer, Britannic, from New York for Liverpool, has arrived in London.

In Concord, N. H., the local option license bill was killed in the House to-day.

At the sub-treasury this afternoon \$100,000 in gold coin was ordered for shipment to Cuba.

In London the Commons adjourned for Easter holidays. The House will re-assemble on April 16th.

At New Orleans, the Olympic Club has withdrawn its offer of \$5,000 and the Myer-McAniff match is off. McAniff refused to fight.

San Francisco Meat Market. Following are the rates for whole carcasses from slaughterers to dealers: BEEF—First quality, 6c@6 1/2; second quality, 5c@5 1/2; third quality, 4c@4 1/2. PORK—Live Hogs, on foot, grain fed, heavy 4c; light, 3 1/2c@3 3/4; dressed Hogs, 8c@8 1/2.

Preparing For The Hedges. This is the time of the year when the cow boys are feeding up their horses, repairing the trappings, and doctoring sore-back mustangs, preparatory to the spring rodeos. The round up will commence in this section about the 10th of May.

Beef For Oregon. Louis Dean sold a train load of beef cattle yesterday to go to Portland, Oregon. With the whole coast drawing the beef supply from this State prices should advance beyond seven cents.

DIED. CONKLIN.—At Chat, Lassen county, Cal., March 25, 1891, Mrs. Conklin, infant daughter of Mr. and Mrs. A. O. Bird, aged 12 days.

Easter Coming.

The Lenten season closes on Sunday, and Easter will be duly observed by the religious portion of the community. It is the custom of church people to make extra efforts on that occasion. This year the contributions at the Episcopal Church will be devoted to an organ fund, which, when it gets large enough for the purpose, will be used to purchase an instrument that will be worthy the use it is put to. Reno has one of the best musicians in America, a lady whose hand and voice are always ready at the call of duty. For nearly twenty years she has lived in Reno, and during all that time her talents have been at the service of the mourners in their hour of sorrow, or the merry at weddings or festivals. She has woven the sweet sounds into music for the worship of God almost ever since Trinity Church was started, and it is certainly due to her to have a better instrument. It will add to the interest of every occasion, increase the size of the congregations, up-build the morals of the town and add to the strength of the church. For all these reasons and out of respect for Miss Qualife, let the Easter offering of 1891 be worthy the day and the occasion.

In less than two weeks the law imposing an import duty on sugar will be abolished and the free sugar clause of the McKinley bill will be in effect. The present duty, amounting to 21-2 cents per pound upon an article not produced in this country except in small quantities, will no longer be collected and the 60,000,000 people will receive the benefit. The American breakfast table is free. The tax has been removed from an article of very limited home production, and distributed upon other articles which compete with the American products. That was the principle of the McKinley bill and also of the reciprocity clause and it is daily finding more favor with the people, as they are ascertaining how it has been misrepresented and lied about by a desperate and partisan Democratic press. There is no reason now why the price of sugar should not be speedily reduced to the consumer; if it be not the fault is not with the Republican law makers. Free sugar saves over \$60,000,000 a year to the people of this country, and at the same time it interferes in no respect with American labor, as the law provides for a bounty for what little sugar is raised in the United States.

It will not be at all surprising if C. P. Huntington raises quite a breeze when he gets to San Francisco. He certainly will if he is honest in his endeavor to get his company out of politics. Those packages of greenbacks that found their way into the lobby of the California Legislature from Fourth and Townsend streets will give the President of the Southern Pacific Co. his cue, and from that he can extend his inquiries into this State with profit to his company. Mr. Huntington is undoubtedly sincere in his desire to remove the railroad from politics, but his "hired men" are hard to control—they have had the cares of State resting on their shoulders too long to quit without a struggle, for there is many a snapper to their whip and they fear losing some of them if they "get out of politics."

ARMY officers acting as Indian Agents in Dakota say that peace in the spring depends upon a square deal with the Indians in the meantime in the matter of supplies. The argument has been heretofore that agents, who were political appointees, were responsible for cheating the Indians out of their dues. With army officers in charge, there should be no further trouble on that score.

SECRETARY BLAINE is quite right in declining Sir John Macdonald to use him for making good his election pledges in the matter of reciprocity. It is difficult to see how we can gain by Sir John's proposed reciprocity in natural products. The advantage would be all on the side of Canada. Commercial union would be better, but impossible without political union.

A STRANGE STORY.

A Utica Young Lady's Dream and Its Development in Chicago.

A certain lady of letters, well known to some in Utica, in company with a number of congenial companions, was passing the summer at a mountain resort in this State, says the Utica (N. Y.) Herald. She and her companions, who were also ladies engaged in literary pursuits, agreed that each morning they would meet and relate their dreams of the night before, both for the purpose of making scientific observations and for the interest of the thing itself. Doubtless if the ladies had pondered the maxims laid down by the father of his country, and had understood that one in which he forbade the revealing of dreams, they would have followed his illustrious example. But if they had this anecdote would never have been told.

The symposium was held regularly every morning and was a source of considerable amusement. One day, however, the lady first referred to, who may be called Miss Gale, came down with a troubled countenance, and when her friends demanded the records of her sleeping hours she refused to tell them. She had a dream of very bad omen and did not wish to depress them as she had been depressed by its recital. There was a flutter of excitement, of course, but the refusal was final.

On the morning after Miss Gale appeared still more disturbed, and in answer to the questions of her friends she said that the dream had been repeated. She still refused to reveal it, but when the vision appeared on the third successive night, she became quite nervous about it, and was persuaded to make it known.

"The dream that I have had three times, now," said Miss Gale, "is this: I seemed to be sitting at my window in the upper story of the house, where my home is, watching the passers in the street. Soon a line of carriages appeared coming up the street, and when I looked more closely I saw that it was a funeral procession. I regarded it idly, but became more interested when it halted in front of the house where I was. I noticed distinctly the appearance of the train, the drivers with their black hats and gloves and the hearse. The hearse backed up in front of the door, and the undertaker's assistant, who was sitting up in the seat with the driver, jumped down and opened the door. Then he looked up at me and I saw that in the front of his cap was the number '9'. He had a deep scar across one cheek. 'Are you ready?' asked the man. I was greatly startled, and while I was trying to say something in reply to the question, I awoke."

The effect of the story upon Miss Gale's listeners was depressing, but after awhile one of them remarked upon the saying that "dreams go by contraries," and the unpleasant thoughts were laughed away. The dream was not repeated again. The vacation passed pleasantly, and their remembrance of the dream grew indistinct, and when Miss Gale returned to her home and the cortege of her vision did not materialize, she quite forgot it. Several months later she had occasion to visit Chicago, and while there took advantage of an opportunity for inspecting some of the public buildings. One day she left her friends on the first floor of one of these buildings, and went up to the fifth story to see some particular object of interest. Having finished her inspection she waited with several other people for the elevator to take her down again. When it came the others got in quickly enough, but the man who had charge of the elevator thought Miss Gale was too slow.

"Well," he said, "are you ready?" Like a flash the memory of her dream came back, and she looked at the man, astonished. Then she saw the scar upon his face and the number "9" in his cap.

"No, no, not yet," she said, involuntarily. The man slammed the door impatiently and the heavy laden elevator started downwards. It had not reached the next floor before the steel cables parted and the whole machine crashed to the basement. Four persons were taken out of the wreck, dead.

WEDDING PRESENTS.

Select Sensible Ones—A New York Bride's Elegant Display. Wedding gifts in these latter days are mostly sensible, solid, original and artistic, and, excepting the usual family gifts of silverware in large and small cases and sets, there is an entire absence of the butter dish and spoon-holder mania. "Something out of the ordinary," says the New York Post, is now sought after, and as a result the bride has not eight or ten duplicates of a certain gift. It is still so much the fashion to light the parlors and dining and reception rooms with beautifully shaded lamps that these in all sizes and designs still figure very prominently among wedding-presents. A very large and expensive Venetian lamp in bronze and gold, set with semi-precious gems, shone among the choice gifts to a recent bride of great wealth, living in New York City. Another lamp sent from Rome was of gold and enamel, the cream enamel center portions upon the four sides of the square receiver being superbly hand-painted with four distinct types of womanly beauty—Italian, English, Spanish and American. A third lamp, a superb Oriental model was of black onyx, gold and pearl, with finishings of fine Indian work in gold and roccoco. Lamps showing odd combinations of Mexican onyx and Doulton ware were presented. Among other gifts were a pair of beautiful white elder-duck rugs; Wagner's opera entire, magnificently bound; some old Venetian lace flouncings; a piece of richest silk velvet direct from Lyons looms; a Mexican onyx cabinet completely filled with gifts, the cabinet from the professors and teachers of a certain college, the gifts from the bride's college-class graduates; silks direct from China, furs from Russia; magnificently framed oil paintings and engravings; forty-eight pairs of Suede gloves in solid silver boxes, four large uncut diamonds in a solid gold jewel box; a box of small birds of rarest plumage for trimming a ball toilet from the Isle of Trinidad; and twelve yards of cream velvet and twelve of Mermet-rose velvet, exquisitely hand-painted.

MISCELLANEOUS.

Pure Blood

Is absolutely necessary in order to have perfect health. Hood's Sarsaparilla is the great blood purifier, quickly conquering scrofula, salt rheum, and all other insidious enemies which attack the blood and undermine the health. It also builds up the whole system, cures dyspepsia and sick headache, and overcomes that tired feeling.

Scrofula Sores.

"My adopted boy, aged 14 years, suffered terribly from scrofula sores on his leg, which spread till they at one time formed one great sore from the calf of his leg up to his thigh, partially covered with scab, and discharging matter continually. The muscles became contracted so that his leg was drawn up and he could hardly walk. We tried everything we could hear of, without success, until we began giving him Hood's Sarsaparilla. In just a month, after he had taken two-thirds of a bottle, the sores entirely healed, his leg is perfectly straight, and he

Can Walk as Well as Ever.

Hood's Sarsaparilla is the best medicine I ever saw for scrofulous humor. It has done its work more than satisfactorily." WILLIAM SANDERS, Rockdale, Millam County, Texas.

Hood's Sarsaparilla Sold by druggists. \$1; six for \$5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

100 Doses One Dollar

ONE ENJOYS

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, its many excellent qualities commend it to all. It is for sale in 50c and \$1 bottles by all leading druggists.

OPERA HOUSE DRY GOODS STORE.—C. W. BOOTON.

To the Business Men and Citizens of the State of Nevada:

The time has come when I am compelled to plead my own cause in this boycotting business. First, I will acknowledge that I signed the first contract to close at 8 o'clock, also that I did all I could to carry it out and help the League, but as it has been my misfortune to have reverses in business, and as I was compelled to raise money for parties that I owe, I went to the Clerk's League at a meeting on two different occasions, and told them it would be impossible for me to close at 8 o'clock. Now, when the League says that I, on different occasions violated my pledge, all I can say and can prove, and that by Mr. Al Wilson, who is a member of the League, that it is FALSE, as Mr. Wilson has been in my employ since the contract was signed, So far as my word is concerned, it is for the people to say, and not for the League to publish such trash to the entire State. I will further state that when the time comes that a few boys try to pull down and degrade a man when he has the misfortune that I have had, then it is high time to sell out and let the boys run the town. Respectfully, C. W. BOOTON.

"So your papa has gone fishing, has he?" said the minister to Johnny Cumbo; "what kind of tackle does he use?" "Hook and line," replied the intelligent boy. Pipes and tobacco for the lone fishermen at Thursdays.

The Result of Merit.

When anything stands a test of fifty years among a discriminating people like the Americans, it is pretty good evidence that there is merit somewhere. The value of a medicine is best proved by its continued use from year to year by the same persons and families, as well as by a steady increasing sale. Few, if any, medicines have met with such continued success and popularity as has marked the introduction and progress of Brandreth's Pills, which, after a trial of over fifty years, are considered to be the safest and most effective purgative introduced to the public.

That this is the result of merit, and that Brandreth's Pills actually perform all that is claimed for them, is conclusively proved by the fact that those who regard them with the greatest favor are those who have used them the longest.

Brandreth's Pills are sold in every drug and medicine store, either plain or sugar-coated.

Is Disease a Punishment for Sin?
The following advertisement, published for a prominent western patent medicine house would indicate that they regard disease as a punishment for sin:

"Do you wish to know the quickest way to cure a severe cold? We will tell you. To cure a cold quickly, it must be treated before the cold has become settled in the system. This can always be done if you choose to, as nature in her kindness to man gives timely warning and plainly tells in nature's way, that as a punishment for some indiscretion, you are to be afflicted with a cold unless you choose to ward it off by prompt action. The first symptoms of a cold, in most cases, is a dry, loud cough and sneezing. The cough is soon followed by a profuse watery expectoration and the sneezing by a profuse watery discharge from the nose. In severe cases there is a thin white coating on the tongue. What to do? It is only necessary to take Chamberlain's Cough Remedy in double doses every hour. That will greatly lessen the severity of the cold and in most cases will effectually counteract it, and cure what would have been a severe cold within one or two days time. Try it and be convinced." 50 cent bottles for sale by J. B. McCullough, Druggists.

A Scram of Paper Saves Her Life
It was an ordinary scrap of wrapping paper, but it saved her life. She was in the last stages of consumption, told by physicians that she was incurable and could live only a short time; she weighed less than seventy pounds. On a piece of wrapping paper she read of Dr. King's New Discovery, and got a sample bottle; it helped her, she bought a large bottle; it helped her more, bought an other and grew better; fast, continued its use and is now strong, healthy, rosy, plump, weighing 150 pounds. For further particulars send a stamp to W. F. Pinner's Drug Store, Smith. Trial bottles of this wonderful Discovery free at W. F. Pinner's Drug Store.

Quick Work.

From the Des Moines Mail and Times.
A few days ago while sitting in Elder Bros' drug store at Tingler, Iowa, Mr. T. L. Dyer, a well known citizen, came in and asked for something for a severe cold which he had. Mr. Elder took down a bottle of Chamberlain's Cough Remedy and said: "Here is something I can recommend. It commands a large sale and gives genuine satisfaction. It is an excellent preparation and cheap." Mr. Dyer purchased a bottle, and the next day when we saw him he said he was much better, and the day following appeared to be entirely restored. This is a specimen of the effectiveness of this preparation. For sale by J. B. McCullough, Druggist.

Eucalypti.

This is what you ought to have, in fact, you must have it, to fully enjoy life. Thousands are searching for it daily and mourning because they find it not. Thousands upon thousands of dollars are spent annually by our people in the hope that they may attain this boon. And yet it may be had by all. We guarantee the Electric Bitters, if used according to directions and the use persisted in will bring you good digestion and rid you of all diseases of the Liver, Stomach and Kidneys. Sold at 50c and \$1 per bottle by W. F. Pinner's Drug Store.

Advice to Mothers.

Mrs. Winklow's SWEET SYRUP should always be used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for all troubles. Twenty-five cents a bottle.

Life will acquire new zest, and cheerfulness return, if you will impel your liver and kidneys to the performance of their functions. Dr. J. H. McLean's Liver and Kidney Balm will stimulate them to healthy action. \$1.00 per bottle.

LAW OF NEVADA.

Passed at the Fifteenth Session of the Nevada Legislature, Ending March 10, 1891.
The GAZETTE continues to-day the publication of the laws enacted by the last Legislature. Those of only local character are given in brief synopsis, while any of general interest will be given in full:

CHAP. XVI.

Relative to and defines non-judicial days and designates Sundays, New Year's Day, Washington's Birthday, Memorial Day May 30, Fourth of July, Admission Day October 31, Thanksgiving Day, Christmas Day, or a day on which a general election is held, except for four causes assigned.

CHAP. XVII.

An Act to fix the number of officers and attaches of the Legislature and to define their duties and specify their pay. Takes effect April 1, 1891.

CHAP. XVIII.

An Act for the reapportionment of Senators and Assemblymen to the several counties, as follows:

Counties.	Assem. Sen.
Churchill.....	1
Douglas.....	1
Elko.....	3
Esmeralda.....	2
Eureka.....	2
Humboldt.....	2
Lander.....	1
Lincoln.....	1
Lyon.....	2
Nye.....	1
Ormsby.....	3
Storey.....	3
Washoe.....	4
White Pine.....	1

CHAP. XIX.

An Act to provide for the collection of interest on public lands contracts prior to Jan. 5, 1891, and wrongfully apportioned to the State School Fund. Transfers \$38,706.11 from the State School Fund, one-half to the University Contingent Fund, and the other half to the General School Fund.

CHAP. XX.

An Act to provide for the copying of the Journal of the Assembly. Appropriates \$200 to A. C. Pratt for that purpose.

CHAP. XXI.

As this will probably lead to litigation sometime in the future it is given in full:

"An Act requiring the Board of Examiners to annul certain contracts between the State of Nevada and John Mullen.

"SECTION 1. It is hereby made the duty of the Board of Examiners to annul and annul all contracts heretofore made by the board of Examiners in behalf of the State of Nevada with John Mullen in relation to the prosecution of claims against the General Government, as authorized by an Act of the Legislature of this State, entitled 'An Act authorizing the Board of Examiners of this State to employ attorneys at the City of Washington, District of Columbia, to prosecute claims of this State against the General Government, and defining the mode and manner of paying said attorneys,' approved February 21, 1881, and also an Act amendatory thereof, approved February 19, 1883.

"SECTION 2. The Board of Examiners are hereby authorized, in behalf of this State, to agree to pay said John Mullen five per cent. of all moneys that may be recovered upon said claims out of the proceeds thereof, when collected, in full compensation for services rendered by him, under said contracts, up to time of notice of cancellation."

ITEMS FROM THE GREAT EAST.

Matters of Interest from Lander and Nye Counties.

The People's Advocate of Austin, of the 15th inst., gives the following: Louis Dean of Reno has been in and about Austin the last few days looking after beef cattle to ship to British Columbia. He went Sunday to look at Mrs. John Spencers' steers at her Grass Valley ranch.

Mr. Dean has returned home, but without making a purchase. Charles Jordan, who was taken with a gripe and paralysis at Bernice, and who was brought to Austin a few days ago by Messrs. Blight and White died quite suddenly at the hospital Saturday evening about 6 o'clock. The deceased was a native of Sweden, about 70 years of age, and was well and favorably known in Austin for many years.

Jerry and Ed. Downey are working their mines at Downeyville. At Ellsworth, Anderson and LaBene are prospecting their mine, and taking out 130-ounce ore.

Alfred Welsh is working four men in the Silver Lead mine, three miles east of Lodi. Bart Croce is working a mine about a mile and a half south of the Silver Lead.

CATTLE SHIPMENTS.

Fifty-one Car Loads of Live Stock Shipped to-day.

The following shipments of live stock were made from Reno to-day: Eight car loads of beef cattle from Winnemucca were forwarded by Mr. Evans to Millipitas, and two car loads of beef cattle were sent by him to San Jose.

Ten car loads were shipped by Mr. James to San Francisco.

Four car loads were forwarded by J. Sibbold of Golconda to Santa Rosa.

Fifteen car loads of beef cattle were shipped to Horn & Chapman of San Francisco.

Nine car loads of beef cattle were shipped to Welby & Judd of San Francisco.

Three car loads of live hogs that were rested here yesterday were forwarded to-day and ten more car loads of hogs will arrive here from Iowa to-day, en route to California.

Attention to Breeders.

The imported English stallion, Merrifield King, the property of Wm. Wright will make the season this year at the farm of Mr. Wright for three days in the week and in the neighborhood of the balance of the time. Mr. Wright will pasture mares at the rate of \$2 per month if it is so desired. Breeders will do well to pay attention to the pedigree of Merrifield King and if they want a fine colt breed to him. He never was in finer form than this season and is a beautiful animal.

SUGAR BEET CULTURE.

Soil, Temperature, Rainfall and General Conditions Necessary.
As experiments in the cultivation of sugar beets will be made by a number this season in this State, the GAZETTE publishes the following deductions arrived at in the cultivation of sugar beets elsewhere, and which will be found to apply to the general conditions in this State.

SOIL.

While it is claimed that there is no definite rule for the chemical composition of a soil suitable for the cultivation of the sugar beet, and that the character for the purpose must be determined by actual trial, yet, a sandy loam with a subsoil of clay is universally recommended.

TEMPERATURE.

Temperature and rainfall exercise the most pronounced influence not only on the yield in tons per acre but also on the saccharine qualities. Authorities agree that a mean temperature near 70 degrees during the three summer months is the best adapted to sugar beet culture.

In respect to the rainfall it is necessary to call attention to the fact that a wet September and October are more likely to injure a crop of sugar beets than a moderately dry July and August. A wet autumn succeeding a dry summer is almost certain to materially injure the saccharine qualities of the beet before it can be properly harvested.

The amount of rainfall necessary to the full development of the sugar beet, depends to a large degree on the character of the soil and temperature. Moisture sufficient to make the desired growth should come during the summer months, giving the last six or eight weeks of the season for sugar storing. The beet is less liable to be affected by dry seasons than most any other crop on account of its long root reaching far down into the soil, and in seasons of drouth the percentage of sugar is so much greater that it will largely make up for the shortage in yield.

GENERAL CONDITIONS.

Dr. McMurtrie in summing up climatic conditions says: "The conditions are in general, comparatively dry and warm spring months during the time for the preparation of the soil, planting and cultivating the crop; moderate to abundant and frequent rains during the summer months, the time for the ultimate development of the crop and its valuable constituents; a cool, dry fall, the time for ripening, harvesting and storing the crop. If these conditions prevail, the result will be good, otherwise but medium or even bad."

TUSCARORA ITEMS.

The Citizens There Favor the Carlin and Boise City Railroad.

From the Times-Review of the 23d inst. is gleaned the following items: It is reported that R. E. Moore of Bull Run has disposed of his cattle, some 1500 head, for \$25,500.

As is the custom, we suppose our delegation, after the adjournment of the Legislature, went to the Bay to rusticate. Why not? "Passes" cost nothing. [No, Oscar, you are mistaken; they cost a kick by the telegraph.]

James Beveridge, who was appointed Postmaster at this place several months ago, vice D. B. Williams, resigned, received his commission by last night's mail.

Regarding the proposed railroad from Carlin to Boise City, against which there is such a kick by the citizens of Elko, the measure seems to be looked upon with favor by nearly all of the business men of Tuscarora, as well as the miners, farmers and stock-raisers of the section through which the road will pass, contiguous to and northward of this place. Learning that the citizens of Elko had telegraphed the Governor to withhold his signature to the bill until a protest could reach him from that place, a counter petition was sent from here this forenoon.

COMMENDABLE ACTION.

The Public School to Have a Week's Vacation.

The Reno School Board have decided to close the public schools next Friday for one week to give the pupils a mental breathing spell—a short spring vacation. They have acted wisely in so doing. Six months of steady school work—the time from January 1st to the summer vacation—is too hard a strain upon the average pupil if he is doing earnest work. A short rest in the middle of such term is now advocated by educators everywhere, and is generally observed by all progressive schools and colleges. Men and women who are accustomed to daily work throughout the year are apt to forget the requirements of boys and girls for occasional rest and recreation. The teachers may or may not be in need of such rest, but their pupils will certainly be benefited thereby. So boys and girls enjoy yourselves next week, and return to school thereafter stronger and happier, with renewed zeal and interest in your studies.

Cleveland Coming.

W. S. Cleveland's Consolidated Minstrels, after a series of successes in New York and the other larger cities of the East, will be seen at McKisick's Opera House on Monday evening, March 30th. The merits of this attraction are well known to the amusement-going public, and were they not, either Mr. Cleveland's name or the company's roster would be a guaranty of superiority.

Its Excellent Qualities.

Commend to public approval the California Liquid Fruit Remedy, Syrup of Figs. It is pleasing to the eye, and to the taste, and by gentle action on the kidneys, liver and bowels, it cleanses the system effectually, thereby promoting the health and comfort of all who use it.

Received.

The GAZETTE acknowledges the receipt of the annual report of the Nevada Weather Service, in co-operation with the U. S. Signal Service, C. W. Friend, Director; D. C. Grunow, Assistant.

Highest of all in Leavening Power.—U. S. Gov't Report, Aug. 17, 1889.

Royal Baking Powder

ABSOLUTELY PURE

BREVITIES.

Local and General Intelligence.

See 50-cent column for the children's fancy dress ball.

The express office at Beckwith, Cal., has been discontinued.

A good girl can find a situation by reading the GAZETTE's 50-cent column. Fifty-five recruits from Jefferson Barracks, near St. Louis, Mo., passed Reno last evening, going to join the First Infantry at the Presidio.

Berry & Novacovich will have fresh salt water fish on the first train to-morrow morning. No Truckee trout in market until after April 1st.

The Sunday School of the Baptist Church will give an Easter concert at the Baptist Church on next Sunday at 7 o'clock p. m. All are invited to attend.

"And, Edward, although you live in a wicked city, I suppose you go to church regularly." "Oh, yes; I haven't missed an Easter for years." He buys his cigars from Marcus Fredrick.

Daniel H. Wells, counselor to the Twelve Apostles and General in the Nauvoo Legion, an old-time leader and trusted official of the Mormon Church, died in Salt Lake yesterday of pleuropneumonia.

One hundred Eastern brewers are coming to San Francisco and other California cities to see the hops growing in the famous Payallup and White River Valleys.

The weather's manner strange will keep one in a state of constant flutter, to know just when to change his chest-protector for a linen duster. For cigars and tobacco, pipes, cutlery and notions go to A. Nelson.

Hundred-pound bars of tin are being cast at the present time at Cajalco, ten miles from South Riverside. The furnace will continue to run until it reduces all the black tin accumulated on the smelting furnace floors.

Cherries are so far matured at Vacaville that shipments are expected within three weeks, about ten days earlier than last year. Peach and apricot trees are loaded with fruit and thinning will have to be resorted to in order to save the crop.

A large assemblage of the relatives and friends of William K. Forsyth and wife gathered at Cambrian Hall, San Francisco, Monday evening to celebrate the fiftieth anniversary of their marriage, which occurred at Pleasant Bay, Ontario, March 23, 1841.

Nearly everybody needs a good medicine at this season, to purify the blood and build up the system. Hood's Sarsaparilla is the most popular and successful spring medicine and blood purifier. It cures scrofula, all humors, dyspepsia, sick headache, that tired feeling.

To be a Republican member of the California Legislature is an arduous opportunity. At the last market report the price of votes for the Senate had reached \$2,000, with an active demand. These figures will make some of the old gang who infest Harrisburg prick up their ears.

D. W. Welby, one of the leading lawyers of Chehalis, Wash., died yesterday morning from an attack of la grippe and pneumonia. He was born in Pennsylvania and was sixty-five years old. He served two terms in the Senate of Nevada and was once Grand Master of the California Grand Lodge of I. O. O. F.

A Glowing Report.

M. E. Harmon, an old resident of Mojave, and Darwin, Inyo county, Cal., has returned from a trip near Death Valley. He reports having met two miners who had secured a location near the rich gold discovery in the southern part of Nevada, and they gave a glowing description of its richness. They said one man could pound out in a hand mortar from \$40 to \$50 per day.

Mr. Harmon is known to be a reliable man, but the prospectors were probably excited.

Hogs From the East.

Another important lesson is being taught the farmers of California and Nevada by the shipment of hogs from Iowa to the Golden State. Three cars were rested here yesterday and re-shipped to-day, and ten more are to come this week. W. O. Bailey shipped a car load to this point a short time since from Nebraska. It seems that this and our sister States not only look to the coast for a supply of smoking meats but for fresh pork as well. What a commentary on farming.

A New Coon Come to Town.

Some one without any regard for the commandments, but in preparation for Easter Sunday, made a raid on Sol Levy's chicken roost last night and selected half a dozen of the fat ones and got away without being detected. Sol says he is anxious to keep them in good condition, and if the thieves son of a gun will come for it he will give him a sack of wheat to feed them. It is a safe bet, however that these chickens will die before they starve.

Serious Danger.

Threatens every man, woman or child living in the region of country where fever and ague is prevalent, since the germs of malarial disease are inhaled from the air and are swallowed from the water of such a region. Medicinal safeguard is absolutely necessary to nullify this danger. As a regular condition of the system, the system so as to be able to resist the malarial poison, Hostetter's Stomach Bitters is incomparably the best and most popular. Irregularities of the stomach, liver and bowels encourage malaria; but these are speedily rectified by the Bitters. The functions of digestion and secretion are assisted by its use, and a vigorous as well as regular condition of the system is promoted by it. Constipation and dyspepsia are thus defended against the inroads of malaria by this medicinal preservative, which is also a certain and thorough remedy in the worst cases of intermittent and remittent fevers.

PERSONALS.

Dr. Harmony of Wadsworth visited Reno last evening.

Jimmie Miller of Long Valley is in town this morning.

Mrs. Agler was a passenger returning to Wadsworth this morning.

George T. Marye Jr. returned from his visit to Virginia last evening, to San Francisco.

John Sibbold of Golconda is in Reno to-day attending to shipment of cattle to San Jose.

James Marzen of Humboldt was a passenger going to Truckee on last evening's train.

Senator Kaiser of Churchill, with his wife, left on last night's train for San Francisco, bound for the Sandwich Islands.

William Stevenson of Michigan, a brother of our late Governor, spent the day in Reno, and was booked for San Francisco this afternoon.

J. P. Woodbury, Superintendent of the Morgan Mill, came down last night and meeting his wife here this morning on her arrival from California, returned to Empire.

John Schmitt, late of the firm of Muller, Schmitt & Co. of Carson, who has sold his interest there, is visiting his brother Ed Schmitt to-day. He leaves for Berkeley to-day and will probably choose some other locality for business.

M. H. De Young of the Chronicle was a passenger on this morning's overland going east. His wife accompanied him. He was clad in a check suit and sack coat, and wore a terra cotta skull-cap that detracted somewhat from the dignity, supposed to surround a defeated candidate for the United States Senate.

A LOST ADDRESS.

A Trinidad Lady Writes to San Francisco for It.

Mrs. Harriet McNamara of 319 State Street, Trinidad, Colorado, while visiting in St. Louis last summer, did not suffer with her usual sick headaches and indigestion. But upon her return to Trinidad her old troubles came upon her. It was not the St. Louis climate that did so much for her. The secret is told in the following letter, received by Thomas Price & Son, the well-known druggists of 524 Sacramento Street, San Francisco. Mrs. McNamara writes:—

"Three months since I was visiting in St. Louis, and obtained two bottles of your Vegetable Sarsaparilla. It was of great relief to me in my headaches and indigestion. Since my return to my home in Trinidad I feel the need of it, and as I have lost the address I write to you to ask if you will kindly forward this to me. I am the proper number in San Francisco, and have sent a few more bottles of this valuable vegetable compound."

People having used J. C. Williams' Sarsaparilla once send hundreds of miles to get it again, as in the above instance.

A Michigan Central Railroad Employee Wins His Case After Seven Years Contest.

While employed as agent of the Michigan Central Railroad Company, at Agusta, Mich., my kidneys became diseased, and from an impoverished and impure state of the blood, my general health was entirely undermined. I consulted the leading physicians of this city, and Ann Arbor, and all pronounced my case Bright's disease. In October last I began taking Hibbard's Rheumatic Syrup, and am today a well man. It affords me pleasure to render suffering humanity any good that I can, and I wish to say that I think it is the best blood, kidney and liver medicine in the world.

E. J. LEBLANC, agent M. C. R. R., Albion, Mich.

Sold by S. J. Hodgkinson. Prepared only by the Wright Medicine Company, Detroit, Mich.

A Sure Cure for Fles.

Itching Fles are known by moisture, like perspiration causing intense itching when warm. This form, as well as blind, bleeding and protruding, yield at once to Dr. Bosanko's Fles Remedy, which acts directly on the parts affected, absorbs tumors, allays itching and cures a permanent cure. 50c. Druggists or mail; treatise free. Dr. Bosanko, Piquette, O. Sold by S. J. Hodgkinson.

Spring Medicine.

MISCELLANEOUS.

HE MARCHED WITH SHERMAN.
trudged all the way on foot, over mountain and rough roads, carrying knapsack and gun, slept on brush heaps to keep out of the mud, caught cold, from the effects of which his friends thought he would never recover. Lingered with slow consumption for many years, he saw Dr. Pierce's Golden Medical Discovery advertised in a country newspaper, and he determined to try it. A few bottles worked a change, six months continued use cured him. Always too independent to ask his country for a pension, he now says he needs none. He helped save his country, he saved himself! Consumption is Lung-Scrofula. For scrofula, in all its myriad forms, there is an unequalled remedy. It cleanses the system of all blood-taints from whatever cause arising, and cures all Skin Diseases, Salt-rheum, Tetter, Eczema, and kindred ailments. It cures the Gravel, Gout, Rheumatism, in all diseases for which it is recommended, or money paid for it will be refunded. Sold by druggists.

Copyright, 1885, by WORLD'S DR. MED. ASS'N.

HOW TO FIND A MINE.

Different Sorts of Mines Are Discovered in Various Ways.
Few people in this part of the country have any idea of the difficulty of finding a mine. A man who follows it for a living must thoroughly understand the nature of the district in which he is. Different sorts of mines are found in different ways, says a writer in the St. Louis Globe-Democrat. If you are in a placer district, of course, you have nothing to do except to walk along a stream, with a pan in your hand, and test the soil by washing till you come to pay dirt. But if you know nothing about it you will waste a great deal of time testing dirt that an experienced prospector would know at a glance contained no gold. In a true fissure or contact district the experienced prospector will walk along the bottom of the gulches looking for "floats," although he expects to find the mine far up the mountain side. The float is vein matter which breaks off with the settling of the mountain and rolls down its sides. The prospector who is acquainted with the district knows it at once, and when he finds it climbs the mountain till he ascends where it came from. A tenderfoot would never know what it was.

But sometimes a tenderfoot strikes it richer than anybody. The Silent Friend mine at Pitkin, Colo., which showed a nine-foot vein of solid galena at the grass roots, was found by two Swede railroad hands who didn't know what the mineral was, and gave away three-fourths of their interest before they discovered its value. Experienced prospectors had been over the ground thousands of times, but there were no external evidences of the lead. The Swedes found it by rolling a boulder down the mountain. The mineral cropped out from the place where the boulder had been.

The great carbonate fields of Leadville were found by a man who was thought insane for sinking a shaft where there were no external evidences of mineral. He found the carbonate in a "blanket vein," lying level as a sheet of water, a great distance below the ground. A regular prospector would never have sunk a shaft there. But where one tenderfoot strikes it that way a hundred thousand get broke and go home disgusted.

REVOLUTIONARY WIDOWS.
Venerable Women Whose Husbands Had Fought in the War.

The last revolutionary soldier died years and years ago. But the revolutionary widows are still with us. Twenty venerable women whose husbands "fought" for American independence are carried upon the pension rolls. It is amazing how the widows of soldiers hold on. At the present time, says a Washington letter, Uncle Sam is disbursing \$88,847 a year to the old soldiers of the war of 1812. But the widows of the soldiers of the war of 1812 are drawing in pensions the sum of \$1,263,399 annually. When we get down to the Mexican war we find the survivors a little the best of it. They draw \$1,728,027 a year. The Mexican war widows get \$695,054. But the widows are creeping up on the survivors. It will be only a few years until the Mexican war widows will be drawing more pension money than the survivors. That is the way the pension laws work out. At the Pension Office this is well understood. It is explained in a few words. The old pensioners marry young wives, and leave them their pensions and pensions. The pensioners of the civil war will reach their maximum in numbers eight or ten years from now if there are no more pension laws enacted. But the widows' list will keep on growing for a quarter of a century. Fifty years from now there will not be a Grand Army man living. Seventy-five years from now a grateful Republic will still be reimbursing widows for what their husbands suffered at Gettysburg and Chickamauga. Women are yet to be born who will become widows of old soldiers and draw pensions for their husband's services in the war of 1861-5.

There are to-day over 100,000 widows on the pension rolls. The pensioners number 400,000. These figures will be reversed in twenty years. Ninety-eight thousand widows draw \$12 a month. Last year the civil war pensioners drew \$17,877,618. The civil war widows drew \$11,000,857, more than one-fourth of the magnificent total.

A WORM-LIT SEA.
Venice Lying in a Bath of Glory When Night Falls on the Ocean.

During the whole of the past year, as well as the last five months of 1889, the whole of the sea of Venice has been as one vast expanse of phosphorescent waves whenever lashed to even the slightest extent by the winds. Formerly, says the New York Journal, this luminous appearance had been noticed only at intervals of about ten or fifteen years, then only from the beginning of summer until about the end of harvest, and in places abounding with sea grass.

Now every thing seems changed, the whole surface of the sea or gulf appearing as a sea of pale white fire as soon as darkness sets in on a windy night. In calm nooks the water is like a drawing of a stick or cane back and forth through the water is sufficient to give the effect of an electric flash, the light dying out and again returning with the ebullitions of the water. A flask filled with the water emits no light until shaken violently; the introduction of a lead pencil or small stick, however, will cause the fluid to glow with greater intensity than any amount of shaking on the part of the experimenter.

Strained through a fine cloth the water loses all of its peculiar properties, they having been imparted to the cloth, which now flickers and glows all over the entire surface like the spot where a damp match has been scratched in the dark. After the last mentioned examinations of cloths used in such operations were rewarded for their pains by the discovery of the light-giving midge, a minute worm or maggot, scarcely the one-seventh-hundredth of an inch in length, each bow-shaped and very lively.

Each of these little creatures is provided with twenty-two mammillae instead of feet, eleven on each side, and has eleven luminous rings around his tiny body. Persons living on the shores of the gulf say that when the waters sparkle more than usual it is a sure sign of a storm.
